PROFESSIONAL SUMMARY

Computer Science Engineering student at SRM Institute of Science and Technology with hands-on experience in AI/ML, full-stack development, cloud platforms, and enterprise technologies. Strong foundation in Python, C++, SQL, deep learning, and software development, with experience building intelligent applications and working with ERP, cloud, and enterprise ecosystems.

EDUCATION

SRM Institute of Science and Technology, Kattankulathur, Tamil Nadu | *B.Tech – Computer Science and Engineering* | 2023 – Present

- Expected Graduation: 2027 | CGPA: 8.81/10 (through 6th semester)

VSPK International School, Delhi | *Class XII – CBSE* | 2023

- 82%

VSPK International School, Delhi | *Class X – CBSE* | 2021

- 88%

TECHNICAL SKILLS

Programming: Python, C, C++, SQL

AI/ML: Machine Learning, Deep Learning, NLP, Computer Vision

Cloud & Enterprise: AWS, SAP, ServiceNow, ERP Systems, Cloud Computing

Development: Full-Stack Development, Front-End, Back-End, Streamlit

Databases & Core: MySQL, Data Structures & Algorithms, Software Development, Networking

PROJECTS

Stroke Detection System | *AI/ML* | *Computer Vision*

- Developed a deep learning system using CNN-based feature extraction and transformer-based attention mechanisms to detect strokes from MRI and CT scans.
- Integrated model inference into a Streamlit application for image-based classification.

CloudKnot | *Cloud* | *System Design*

- Developed a cloud-based project management platform designed for scalable workflows and structured project coordination.

Blockchain Voting System | *Blockchain* | *Web3*

- Developed a decentralized voting application leveraging blockchain technology to improve transparency and tamper resistance of election results.
- Designed data structures and workflows for secure voter, candidate, and voting-record management.

Alumni Portal | *ServiceNow* | *ITSM*

- Developed an enterprise-oriented alumni portal on ServiceNow to connect alumni and streamline communication and networking activities.
- Worked with ITSM-oriented workflows and platform functionality to support user and event management.

AWS Infrastructure Dashboard | *AWS* | *CI/CD*

- Developed a centralized cloud management dashboard for real-time monitoring of AWS utilization and cost metrics.
- Deployed the solution through a CI/CD pipeline to support repeatable and automated delivery.

Sentiment Analysis Chatbot | *NLP* | *Python*

- Developed an AI conversational agent using NLP techniques to detect user sentiment and generate context-aware responses.

INTERNSHIP EXPERIENCE

Bharat Heavy Electricals Limited (BHEL) | *Intern*

- Worked on performance monitoring of power plant fleet operations.
- Gained practical exposure to ERP systems, enterprise workflows, and business process integration.

Bhavishya NGO | *Full Stack Developer Intern*

- Designed and developed a full-stack website, handling front-end and back-end development requirements.
- Implemented functional and user-facing web components for the organization.

BTech Walleh | *Intern*

- Contributed to ongoing projects while gaining practical exposure to software development and industry workflows.

CERTIFICATIONS

AWS: Certified Solutions Architect – Associate | Certified Developer – Associate | Certified Cloud Practitioner | Certified AI Practitioner

ServiceNow: Certified System Administrator (CSA)

SAP: SAP BTP Fundamentals & Architecture | SAP S/4HANA Extensibility using SAP Build Apps | ABAP Environment Setup on SAP BTP | SAP Analytics Cloud – Performance Management | Identity & Access Management in SAP S/4HANA Cloud

Other: Artificial Intelligence – IIT Roorkee (Cognizance) | Networking Basics – Cisco Networking Academy | Programming in Java – NPTEL | Introduction to Machine Learning – NPTEL | Data Structures and Algorithms – Udemy | Design and Analysis of Algorithms – Udemy
